PROFESSIONAL SUMMARY

2026 B.Tech Computer Science graduate with hands-on experience in data analysis, SQL, Python, data validation, reconciliation, reporting, and database integration. Experienced in analyzing and validating 5,000+ records weekly with 95% data accuracy and developing automation solutions that reduced manual processing effort by 70%+. Strong analytical and problem-solving skills with attention to detail, data quality, communication, and structured reporting. Seeking a fresher opportunity to contribute to data-driven operations and business processes.

CORE SKILLS

Data Analysis: Data Interpretation, Data Validation, Data Reconciliation, Data Quality, Exploratory Data Analysis

Technical: SQL, Python, Pandas, MySQL, MongoDB

Reporting: MS Excel, Power BI, Tableau, KPI Reporting, Data Visualization

Programming: Python, SQL, OOP, Data Structures & Algorithms

Tools: Git, GitHub, GitHub Actions, CI/CD

Professional: Analytical Thinking, Problem Solving, Attention to Detail, Communication, Collaboration

PROFESSIONAL EXPERIENCE

Python Developer Intern

Jun 2025 – Dec 2025

AB Infotech Solutions Pvt. Ltd., Pune

- Extracted, transformed, and validated data using Python and SQL across 10+ web platforms.
- Performed systematic data validation and reconciliation on 5,000+ records weekly, achieving 95% data accuracy.
- Identified data discrepancies and processing issues through structured quality checks and investigated results before reporting.
- Built reusable Python automation components that reduced manual processing effort by 70%+.
- Prepared and documented technical results for reporting and team reference.
- Used Git/GitHub for version control and collaborated with cross-functional teams to understand requirements and deliver accurate results.

Python Programming Intern

Jul 2022 – Aug 2022

Maximum Solutions Automation Training Institute, Nagpur

- Developed Python-based tools for cleaning, processing, and validating structured datasets.
- Performed validation checks to identify data-quality issues and improve reliability of processed data.

PROJECTS

Superstore Sales & Profitability Analysis

Python, Pandas, MySQL, SQL, Power BI

- Analyzed 9,994 retail transactions using Python/Pandas, performing data cleaning, transformation, validation, and exploratory analysis.
- Developed SQL queries to analyze and validate sales, profit, product, customer, regional, and shipping data.
- Built a 3-page Power BI dashboard with KPI cards, sales/profit trends, product profitability, customer analysis, regional insights, and interactive filters.

Employee Management System

Python, MySQL

- Developed a database-driven Python application supporting CRUD operations, search, and input validation.
- Integrated MySQL with application workflows and implemented validation to maintain data accuracy and consistency.

AI Smart Fashion Recommendation System

Python, Flask, REST API, MySQL

- Developed a Flask REST API with MySQL integration for processing structured user-preference data and generating recommendations.

EDUCATION

B.Tech, Computer Science & Engineering

2023 – 2026

GH Rasoni College of Engineering and Management, Nagpur

CGPA: 8.50/10

Diploma in Computer Engineering

2020 – 2023

Shri Sai Polytechnic, MSBTE

Aggregate: 81.66%

CERTIFICATIONS

Python Programming – Maximum Solutions | Java Programming – Udemy | HTML & Web Design Basics
